(b) (6) (b) (6) and (b) (6)

EPA's cooperating agency comments for sections 3.0, 3.01, and Appendix J of the NWTT DSEIS V2 are attached. To stay under what we understand is a 6MB limit, our comments on 3.02, 3.12, and 3.13 are in a second email.

Thank you for this opportunity to comment and we want to emphasize our appreciation for this early involvement. We had a great site visit and have enjoyed consistent helpful communication to date. The aim of our recommendations is to assist the Navy in improving the document prior to public release. We look forward to continuing to work together and are happy to answer questions or discuss our comments.
